

Harris & Tucker Preschool

First Day of School Guide Child / Parent Morning Start

You have enrolled your child into the Harris and Tucker School, What now? Here are ten steps to help you and your child have a great first start.

1. Greet everyone by saying good morning.
2. Parents sign in (always write in a contact number).
3. Parents help your child sign in (some children may not need help, most toddlers will need your help).
4. Send your child to hang up his or her coat (Some children may need help)
5. Parents (along with your child) bring lunch to the kitchen counter (parents please make sure everything is labeled). If everything is labeled have your child put lunch on the kitchen counter.
6. Take your child to wash his or her hands. As child become comfortable with washing their hands they will do it without assistance.
7. Ask your child weather he or she would like to eat a morning snack or play in the Centers (AM Snack begins at 7:30, Preschool age only)
8. If your child chooses to eat walk them over to the eating area and as much as possible allow them to do everything (some children may need your help, Preschool age only).
9. Your child may choose to play for a little while, that's ok. They may want to eat later. We will serve AM Snack until 9:00am. Toddlers will have a set time for eating together.

10. Parent and child can at that time bid each other a nice day. Tell them to go to which ever area of choice that they choose. Always remind your child that you love them, always use manners, be a good listener and that you will be back after work.
